NUSSLI is expanding it's presence in Spain

Hüttwilen/Switzerland, April 2, 2009. **NUSSLI, an international supplier of event constructions, is consistently pursuing its growth in the European market. Following the establishment of a branch in Valencia, a branch in the Spanish capital of Madrid has gone into operation. The new business start was accomplished by the acquisition of the business for grandstand and stages of the company Coolproject S.A. and its four employees. In making this move NUSSLI secures a nationwide reach in Spain.**

The NUSSLI Group, headquartered in Switzerland, has been represented in Barcelona, Spain, since 2005 by the branch NUSSLI España S.A. The Group is a leading international supplier of temporary constructions for events, trade fairs and exhibitions. The event business in Spain is a growth market for NUSSLI. Both new foundations are a planned, logistical step with a view to nationwide market development in Spain.

As with the Barcelona site, the two new branches in Valencia and Madrid will be run as offices and also as warehouses. "As a result we can serve our existing and new customers more directly and we strengthen our competitiveness", says Daniel Cordey, Managing Director of NUSSLI Group.

The new business in Madrid has emerged from the acquisition of the grandstand and stage business of Coolproject S.A. Besides taking on the three staff members, the acquisition also includes the continued employment of the director Jan Ruiz del Vall. The experienced manager now acts as Branch Manager responsible for the business of NUSSLI's Madrid base.

The conclusion of a multi-year contract with Valmor Sport S.L. for the supply of temporary infrastructures for the Formula 1 event in Valencia prompted NUSSLI to establish a branch there in 2008. For some time now, the greater area of Valencia has flourished as regards major sporting events. NUSSLI identifies additional market opportunities in this environment. The branch in Valencia has been managed by Jose Manuel Idañez Carrasco since March 2009. From 2005 to 2008 he contributed to the success of the America's Cup in his capacity as Infrastructure Manager of the ACM (America's Cup Management).

About NUSSLI

The NUSSLI Group acts as a leading international supplier of temporary constructions. The company plans, rents, sells and assembles temporary and permanent infrastructures for cultural and sporting events as well as trade fairs, exhibitions and roadshows. The specific combination of know-how, many years of experience and international resources creates new synergies every day. These lead to innovative solutions with short lead times. The flexible construction services are characterized by speed and cost-effectiveness. From design to implementation, the company provides tailor-made, integrated services.

The NUSSLI Group has its own companies in Switzerland (headquarters), Germany, Austria, Spain, Italy and the USA and is represented by partners in other countries.
